FACE CARE

COLLAGEN

WRAPPING MASK

Peel-off gel mask for
smoother-looking skin.

4 FL. OZ
(118 ML)

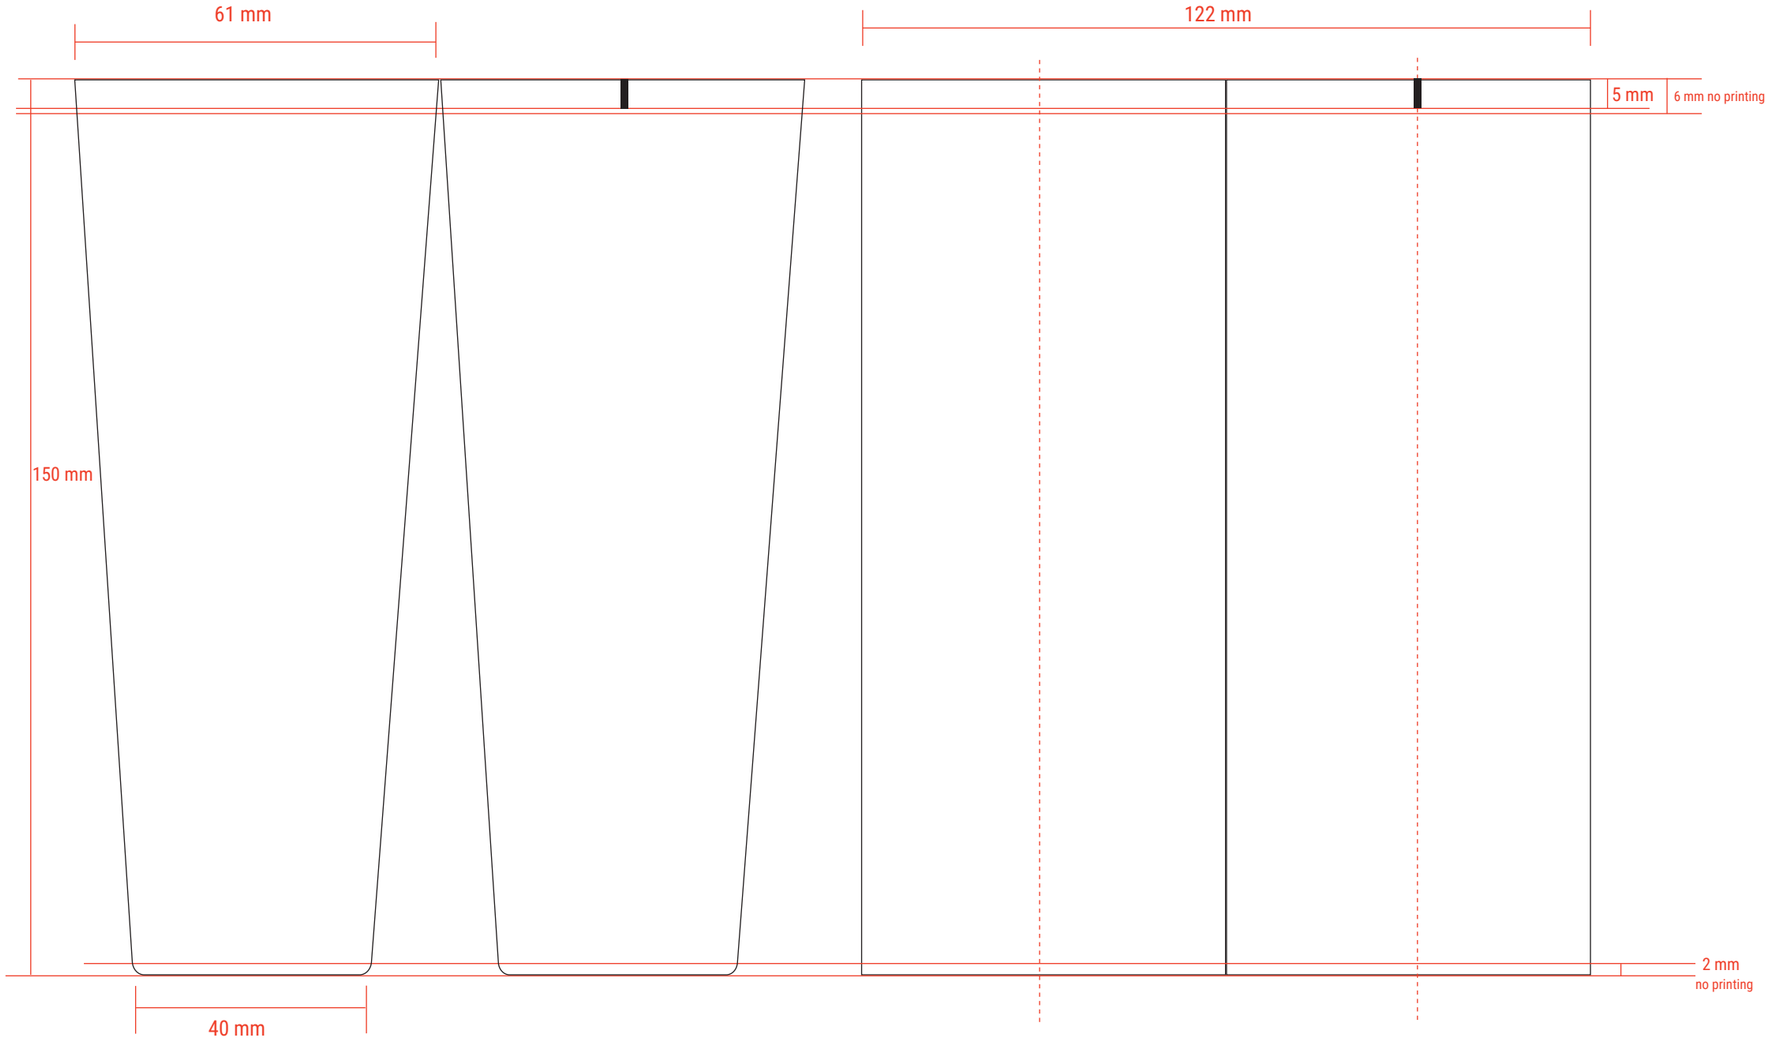

YOUR BRAND

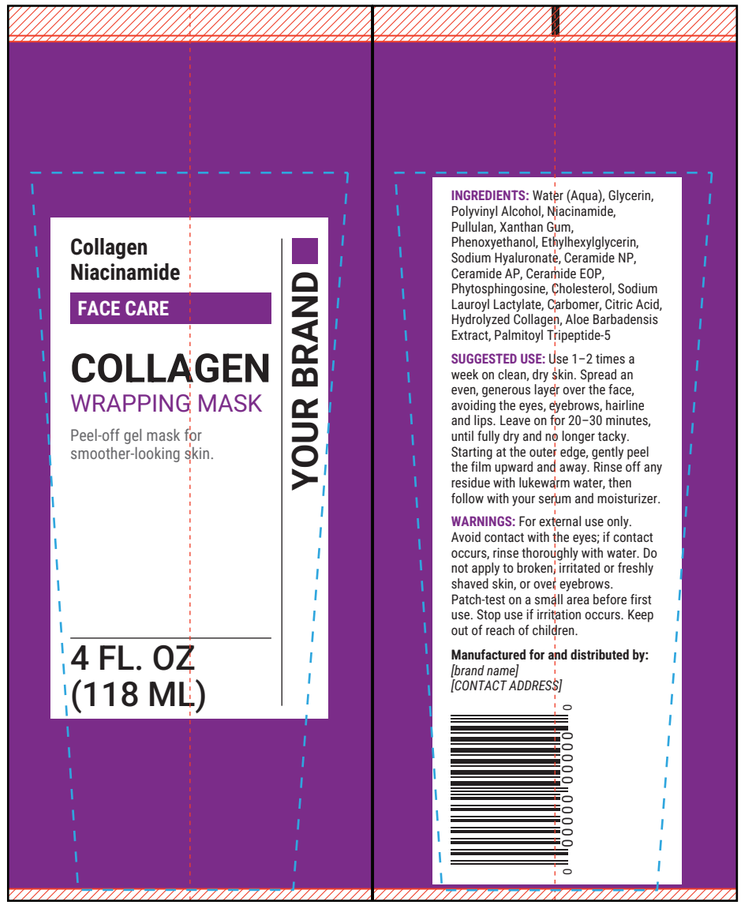

INGREDIENTS: Water (Aqua), Glycerin, Polyvinyl Alcohol, Niacinamide, Pullulan, Xanthan Gum, Phenoxyethanol, Ethylhexylglycerin, Sodium Hyaluronate, Ceramide NP, Ceramide AP, Ceramide EOP, Phytosphingosine, Cholesterol, Sodium Lauroyl Lactylate, Carbomer, Citric Acid, Hydrolyzed Collagen, Aloe Barbadensis Extract, Palmitoyl Tripeptide-5

SUGGESTED USE: Use 1–2 times a week on clean, dry skin. Spread an even, generous layer over the face, avoiding the eyes, eyebrows, hairline and lips. Leave on for 20–30 minutes, until fully dry and no longer tacky. Starting at the outer edge, gently peel the film upward and away. Rinse off any residue with lukewarm water, then follow with your serum and moisturizer.

WARNINGS: For external use only. Avoid contact with the eyes; if contact occurs, rinse thoroughly with water. Do not apply to broken, irritated or freshly shaved skin, or over eyebrows. Patch-test on a small area before first use. Stop use if irritation occurs. Keep out of reach of children.

Guide lines (page 2 only)

———	**Print edge**	Extend the background to this line.
- - -	**Safe zone**	Keep text, logos and the barcode inside.
▨	**No-print zone**	Leave unprinted: 6 mm at the crimp, 2 mm at the shoulder.
·····	**Face centre**	Centre of the front and the back.
- - - -	**Face edge**	Where the front meets the back.
▌	**Eye mark**	The printer's registration mark: keep it.

Reference drawings from V1: left, the two faces narrowing toward the shoulder; middle, the flat 122 x 150 mm print area with its dimensions. Right: the artwork.

Collagen Wrapping Mask tube template · REVIEW PROOF

Confirm the tube print area and safe zones before printing.

Guide lines (page 2)

Print edge

The edge of the 122 × 150 mm print area. Extend your background to this line.

Safe zone

Keep all text, logos and the barcode inside this line. It narrows toward the shoulder, where the tube is round.

No-print zone

Leave these bands unprinted: 6 mm at the crimp end (the 5 mm seal plus 1 mm) and 2 mm at the shoulder end.

Face centre

The centre lines of the front and back faces.

Face edge

Where the front meets the back. The tube is flattened at the crimp, so this edge becomes its side.

Eye mark

The printer's eye mark (photocell mark) for the tube filler. Keep it where it is.

Sizes

Tube	**4 fl oz (118 mL), ø 38.8 mm**
Print area (flat)	**122 × 150 mm**
Each face	**61 × 150 mm**
Shoulder width	**about 40 mm**
No print	**6 mm crimp, 2 mm shoulder**
Color mode	**CMYK**

What goes where

FRONT: your brand, the product name and the net contents (in the bottom 30% of the front face).

BACK: ingredients, suggested use, warnings, the company name and address, and the barcode.

CRIMP END: the top 6 mm stay unprinted. The tube is sealed here after filling.

SHOULDER END: the bottom 2 mm stay unprinted.

SAFE ZONE: it narrows toward the shoulder because the tube is round there. Keep text and the barcode inside it.

BARCODE: replace the sample with your UPC. Keep it at 80% size or larger, bars and numbers inside the safe zone.

What your tube needs

- The product name on the front panel.
- The net contents on the bottom 30% of the front panel.
- The full ingredient list as provided.
- The name and contact address of the brand the product is made for or distributed by.
- The warnings and suggested use.
- Only claims you can substantiate.
- Text at 5 pt or larger.

This list is general guidance, not legal advice. Check the rules for each market you sell in.

Printing

1. Your final artwork is page 1, with no guide lines.
2. The guide lines are on page 2. Send them to your printer as their own layer or page.
3. Use CMYK color; images at 300 dpi, text as vector.
